

SCHOOL INFORMATION MANAGEMENT SYSTEM

Elevating **the Education** Experience

WHO ARE WE WHAT WE DO

Our Goal

'To innovate and bring a serious change in Pakistan's education sector with the introduction of affordable but world-class, cutting-edge technology.

NeoEd Technologies, based in Karachi, Pakistan, stands as an authorized reseller for FACTS, a distinguished Nelnet company (NYSE: NNI) from Nebraska, USA. Our unwavering commitment is to transform educational dreams into reality through innovative services and technology.

Establishment

Founded in Arizona, USA, in 2016, NeoEd Technologies expanded to Karachi in August 2018, focusing on emerging markets. Our dedicated team brings substantial industry knowledge and end-to-end technology expertise.

Service Excellence

At NeoEd Technologies, we pride ourselves on our relentless pursuit of excellence in service delivery. Whether it's providing customer support for critical functions or bringing to life our clients' insightful requirements. We are always committed to offering the best possible service.

FACTS Impact

Partnering with FACTS, we empower over three million students and families in 11,500+ schools, managing \$9 billion in tuition funds annually.

Our Mission

'NeoEd Technologies remains devoted to creating opportunities and enabling educational success'

"OUR PRODUCT AND SERVICES"

Student Information System

- Admission and Enrollment
- Attendance, Behaviour, Counseling
- Classroom Management, Scheduling, Timetables
- Flexible gradebook and customized report cards
- Parent Teacher Meetings
- 300+ Academic, Administration reports
- Staff Information Management
- Communications with families and staff
- Integration with other platforms such as Google Classroom

Learning Management System

- Seamless online teacher-student connectivity for material distribution, assignment collection, and discussions
- Synchronized gradebook to avoid double entry of student marks
- Lesson planning functionality for teachers to prepare in advance
- Controlled student access, limiting plans based on their needs
- Emphasis on peer-to-peer learning with collaborative opportunities
- Online testing and grading

FACTS Family App

Benefits for Administration:

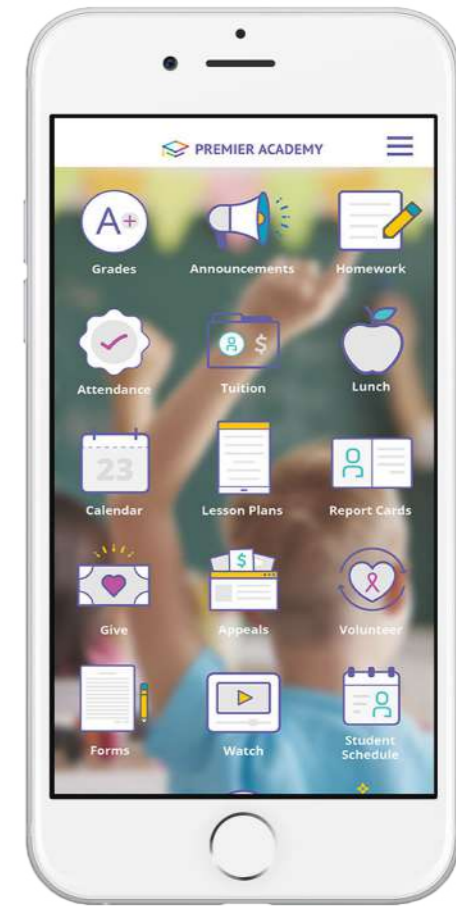

- Fully customizable and branded with your school logos
- Notification to parents for emergency school closures and events

Benefits for Teachers:

- Streamlined communication with parents
- Grades, homework, and attendance viewable in the app

Benefits for Families:

- Access school information anytime, anywhere
- View grades, schedules, announcements, and after school sports – all in one place

DO MORE WITH FACTS:

FACTS Family App is designed to create an easy mobile experience for your school community. The app is published in both Apple iOS and Google Play stores. Our simple and easy-to-use app developer tool ensures you only have to update your app content in one place.

Admissions

All-in-One Admissions

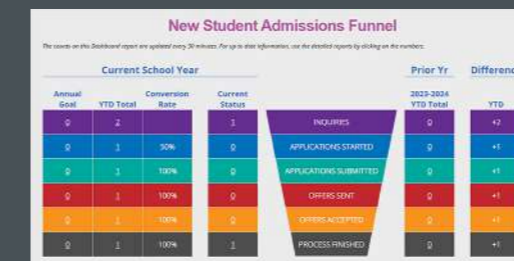

FACTS Application & Enrollment is a cost-effective, feature-rich solution that admissions professionals can use to streamline processes and accomplish their goals – and then some.

Connect With Prospects:

- Admissions event scheduler
- Task management for prospects
- Custom inquiry queue and reporting
- Bulk emails to prospects with personalized fields
- Auto-match inquiries to applications

A Better Application Process:

- Admissions dashboard, checklist, and task management for applicants
- Customizable application fields
- Custom application steps based on grade level and sibling status
- Online recommendation form submission
- Attachment of documents in any format
- Mobile-friendly interface for parents

FACTS SIS + Odoo = INTEGRATED SCHOOL AND FINANCIAL MANAGEMENT

"How it Works"

Odoo is an enterprise resource planning platform (ERP) that seamlessly pairs with FACTS SIS to help you manage your business effectively. FACTS SIS will serve as the source of truth for all your demographic information (e.g. family, learners, and courses). Odoo will automatically update your data through FACTS SIS, allowing you to invoice families and receive payments.

Benefits of Integration

- Integration with FACTS allows real time updates of the student status (Withdrawal, Enrolled etc) in Odoo
- Allows multiple discounts and scholarships
- Integration with local banks and 3rd party financial institutions allows immediate reconciliation
- Comprehensive Accounting and HR package covering expenses, salaries, and more
- Automatic monthly invoicing for various fees (admissions, fee challans, special course fees, etc)
- Customer portal allowing families to view invoices, historical charges, and payments
- Ongoing support provided by local FACTS and Odoo representatives

We have a solution for you if your school faces any of the following problems:

- Ineffective communication between school/students/parents
- Parents are not actively involved with their children's day-to-day activities
- No platform for parents/teachers to access student's progress
- No platform for administrators/school staff to manage student's info
- No platform for teachers to demonstrate concepts/peer-to-peer learning

Implementation & Support

We provide on-site support & and training during the implementation of the SIS.

A structured and well-thought-out implementation plan allows seamless conversion of the school management.

Our continuous support is through local and international dedicated teams.

Offer a multi-tiered support system that allows customers to tap into our team's expertise anytime of the day.

WHAT OUR SCHOOLS SAY ABOUT US

Rubina Naeem, Director Schola Nova – Islamabad

“In Pakistan, we were the first to adopt FACTS, and throughout the last four years, our experience with the system and the service provided has remained consistently outstanding. The customized reports, designed to align with our specific requirements, admissions process along with the smooth integration of student billing through Odoo, have significantly simplified our school management.”

Mohsin Zaman, Head of IT LACAS School Network – Lahore

“Efficient Reporting: Thanks to FACTS, LACAS has successfully streamlined its gradebook system, seamlessly integrating it with report cards. This enhancement has significantly improved the efficiency of the Result Day, a process that was cumbersome prior to the implementation of FACTS.”

Wayne Robinson, Principal Jamaica College – Kingston

“I know schools who use other [SIS solutions], and I would say to them, look at what we've done here. Look at the relationship. There is a key element that FACTS has granted us, and that is direct service. I believe FACTS is a real partner.”

Ms Shafaq, Coordinator The Ivy School – Karachi

“Facts have proven invaluable in streamlining our school's processes and enhancing efficiency. The user-friendly interface simplifies tasks, and the NeoEd technical team's outstanding support ensured a smooth transition. The Family Portal fosters better communication with parents, and teachers appreciate the ease of uploading lesson plans, minimizing downtime and improving the overall teaching experience.”

The Christian International School of Prague – Czech Republic

“FACTS Admissions has been especially beneficial in recent years, as more parents than ever are submitting forms to the school electronically. We can collect so many different pieces of information—agreements and signatures—it's really helpful, a lot less paperwork.”

Maria Haque, Director Haque Academy – Karachi

“Our recent experiences have opened our eyes to new possibilities when it comes to learning delivery and school management. Recent experiences have shown us the power of student autonomy in learning. Working with the FACTS team has been successful, and we plan to integrate more technology for enhanced classroom experiences. Additionally, we're exploring integrations to boost school management efficiency.”

Mountainview Christian School – Indonesia

“This platform allows schools to be more transparent while maintaining confidentiality of sensitive family information.”

Empowering Leading Schools with ONE Integrated Solutions.

'WHY CHOOSE US'

We believe in improving school management through service and technology, and we've never lost sight of our goal — to help schools, administrators, teachers, and families solve the unique challenges they face.

- One of USA's biggest brands serving over 3,000,000 students every day at our 11,500+ schools worldwide
- Online state-of-the-art & comprehensive knowledge base learning/-support available 24/7
- Robust capability
- Focused on aiding schools to be competitive and relevant to their customers (families)
- Continuous R&D for nearly 20 years since inception
